

# RETHINKING TELEMETRY— AND ITS IMPACT ON HEALTHCARE

Flexible wireless solutions for  
your telemetry patients

# THINKING DIFFERENTLY ABOUT TELEMETRY

NIHON KOHDEN OFFERS THE INDUSTRY'S MOST FLEXIBLE CATALOG OF TELEMETRY TECHNOLOGIES, BRINGING YOU IMMEDIATE CLINICAL AND FINANCIAL BENEFITS

**YOU KNOW IT BETTER THAN ANYONE—THE CHALLENGE OF IMPROVING QUALITY WHILE CONTROLLING COSTS IS STILL WITH US—AND TELEMETRY IS ONE AREA WHERE THIS CHALLENGE HAS A DRAMATIC IMPACT BOTH ON PATIENTS AND HOSPITALS.**

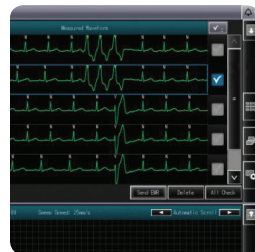

At Nihon Kohden, we're thinking differently about telemetry.

Consider this:

What if you could monitor your at-risk patients throughout the facility and in the process improve care and reduce costs? And what if monitoring of your at-risk patients knew no bounds? With our family of multi-parameter telemetry products you could simultaneously watch over all patients, including those with cardiac conditions and co-morbidities, such as sleep apnea, obesity, and patients on opioid drips located in medical/surgical units while also monitoring for falls and wandering.

Now you can.

Clinicians can perform important assessment-related functions:

Individual patient review

Menu of review screens

Patient away notifications

Send ECG Snippets to EMR

# ADVANCED TELEMETRY FOR AT-RISK MONITORING

BETTER, FASTER ASSESSMENT OF PATIENT INFORMATION ON A LARGER SCALE

**IT'S VITAL THAT CLINICIANS BE ABLE TO QUICKLY AND ACCURATELY ASSESS AND DOCUMENT THEIR PATIENTS' CONDITION, IN REAL TIME. THE NIHON KOHDEN CENTRAL NURSES STATION IS AN INTEGRAL PART OF OUR TELEMETRY SYSTEM AND IS THE DOORWAY TO SEVERAL IT SOLUTIONS THAT WILL GREATLY INCREASE PRODUCTIVITY AND PROVIDE DATA TO CAREGIVERS INSTANTLY.**

The Nihon Kohden telemetry system offers a variety of IT solutions to enhance communications. Among them are remote stations, HL7® vital signs integration, sending strips and measurements straight to the EMR, delivery notifications via paging systems and remote access for nursing, physicians, and technical personnel. Faster information means efficient decision making.

Your account executive can provide detailed information on our offerings.

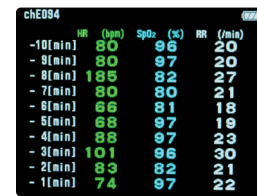

# THE INDUSTRY'S MOST FLEXIBLE LINE OF TRANSMITTERS

**NIHON KOHDEN'S WMTS TELEMETRY TRANSMITTERS ARE IDEAL FOR PATIENTS THAT REQUIRE AMBULATORY MONITORING, FROM THE TRADITIONAL CARDIAC TELEMETRY UNITS TO THE MEDICAL/ SURGICAL FLOORS. WE HAVE THE RIGHT TRANSMITTER FOR THE ENTIRE PATIENT POPULATION REGARDLESS OF ACUITY LEVEL OR LOCATION.**

# THE FUTURE IS HERE

**NIHON KOHDEN'S GZ SERIES TELEMETRY TRANSMITTERS ARE IDEAL FOR HOSPITALS THAT WANT TO UTILIZE THEIR ROBUST WI-FI NETWORKS WHILE ENHANCING THEIR MONITORING CAPABILITIES ON THE NURSING UNITS. THESE TRANSMITTERS PROVIDE ENHANCED BEDSIDE CAPABILITIES TO INCLUDE PAUSE/DISCHARGE, LEAD CHANGE AND BEDSIDE ALARMS ALONG WITH FALL DETECTION AND WANDERING ALERTS AT THE CENTRAL STATION.**

**IT'S NOT IF YOU WILL NEED IT, BUT WHEN**

The increased possibility of damage or fluid infiltration for Telemetry Transmitters is a major challenge for facilities today. Not only does it create a temporary decrease in your monitoring abilities but also comes with unexpected costs.

With Nihon Kohden's damage/fluid infiltration coverage, large unexpected expenditures for replacements will become a thing of the past.

Ask your Account Executive for details.

## ZM MONITORS AND DISPLAYS:

NTX/ZM-540/541PA

Monitors ECG (3 or 6 lead), respiration, continuous SpO<sub>2</sub>, and NIBP

ZM-530/531PA

Monitors ECG (3 or 6 lead), respiration, and continuous SpO<sub>2</sub>

## GZ MONITORS AND DISPLAYS:

GZ-140

Monitors ECG (3 or 6 lead), ECG/SpO<sub>2</sub>/Respirations & NiBP

GZ-130

Monitors ECG (3 or 6 lead), ECG/SpO<sub>2</sub> & Respirations

# NK-HEALTHPROTECT™ WIRELESS SURGE SOLUTION

EMERGENCY DEPARTMENTS AND MOBILE TRIAGE UNITS FOR MASS CASUALTY INCIDENTS. READY TO DEPLOY, PELICAN CASE, FAST SETUP.

**NOW MORE THAN EVER, HOSPITALS NEED SOLUTIONS THAT ARE EASY TO DEPLOY AND SET UP QUICKLY.**

The Covid-19 pandemic has reshaped hospitals in dramatic ways. A key development was the need for instant expansion of monitoring capabilities at a moments notice. The Wireless Surge Solution provides a solution that is packaged for easy storage and instant deployment in the event of an emergency or surge situation. Each system includes a laptop, 8 GZ transmitters, an access point for wireless connectivity and all cables and accessories needed to effectively monitor your patients.

# DIFFERENT THINKING TO ADDRESS TODAY'S CHALLENGES

**FACED WITH THE CHALLENGE OF IMPROVING CARE QUALITY—WHILE CONTROLLING COSTS—HEALTHCARE PROVIDERS SEEK BUSINESS PARTNERS WHO ENABLE REAL CHANGE AND WHO THINK DIFFERENTLY.**

At the forefront of change within the healthcare continuum, Nihon Kohden is uniquely suited to empower providers to meet these challenges and surpass patient quality and safety initiatives. Nihon Kohden provides quality, reliable technology, and drives integration at the clinical level, across all care areas. As a result, with Nihon Kohden technology, clinicians can access a higher level of information, enabling more accurate diagnoses and ultimately, better outcomes.
